Important Note:

Do not delay in seeking advice from a qualified, licensed medical professional about treatment for your cancer. The information presented here is no way meant to discourage you from undertaking conventional treatments for your cancer, but hopefully will support you and your doctor to undertake 'smarter', more effective approaches to beat your cancer. The information is provided for educational and informational purposes only, and is not intended to be a substitute for the diagnosis, treatment and advice of a qualified, licensed medical professional. The information is provided to support your informed consent to any treatment program you may decide to undertake. Self-treatment for clinical cancer is not advised. Statements regarding alternative treatments for cancer have not been evaluated by the FDA. Please consult your qualified, licensed medical professional or appropriate health care provider about the applicability of any opinions or recommendations with respect to your own symptoms or medical conditions. The researchers, writers and editors at PHI NATURAL HEALTH INTERNATIONAL LTD are not doctors, and shall have neither liability nor responsibility to any person or entity with respect to any loss, damage, or injury caused or alleged to be caused directly or indirectly by the information provided. No representation or warranties of any kind are made with regard to completeness or accuracy of the information. Quotations are used as 'fair use' to illustrate various points made. Quoted text may be subject to copyright owned by third parties.

Introduction

Purpose

This book is a comprehensive compilation of over 2,000 testimonials. It is a result of extensive research of the methods cancer victors have used to make themselves cancer free. These methods and treatments are described in the ebook, **Natural Cancer Treatments**.

The objectives of the book are to:

- Encourage you to be open-minded and seek ALL the information about your choices of treatments
- Be a starting point for your discussions with your doctor or with the qualified, licensed physicians who use these treatments in their practices, or your chosen natural therapist. Please do not delay in consulting a licensed physician for an opinion if you suspect you have cancer.
- Be a starting point for your own research so you can make the best-informed decisions about your treatment plan.

The consensus of the majority of alternative cancer therapists is that, the chance of full recovery using alternative therapies is almost 100% with a newly diagnosed condition of early cancer, before any traumatic or toxic treatments have been received.

Unfortunately, by the time most patients consider alternative treatments, they have already undergone other treatments.

The e-book does not advise you which treatments to choose. It simply provides you with information that you are unlikely to obtain from your doctor, or find by yourself. You can make use of the information in discussion with the experts who developed these treatments, and with the qualified, licensed physicians, therapists and clinics who use them in their practices.

How To Get the Most From This Ebook

See what cancer victors have used in the following pages, and read about those treatments in **Natural Cancer Treatments**.

The types of cancer are presented alphabetically.

You can also click on any hyperlinked testimonial and jump to the testimonial on the internet immediately, to read it for more detail. If a hyperlink is not working, then that testimonial may no longer be available. Please be patient – the internet is a very dynamic and ever-changing information source. The testimonials are being continually updated.

Make a note of any treatment that you might want to discuss with your doctor or research further.

Additional Reading

This Report is part of the set of e-Books and Reports available from
<http://www.naturalcancertreatments.com>.

Natural Cancer Treatments THAT WORK	<p>Over 350 natural and alternative treatments that people have reported using to beat their cancer.
